On entering Norwich head for the inner ring road (A147) and when on this road follow it in either a clockwise or anti clockwise direction so that you are heading for the north west of the city by the shortest route.

Clockwise

You will come to a roundabout, locally called the Halfords roundabout, where you will see a Halfords store. Turn right at this roundabout going down St Crispins Road and when you come to the next roundabout go all the way around and exit so that you are coming back on yourself. Take the first left turn into Oak Street and then the next left turn into St Martins Lane. The office is on the left hand side and drive into the entrance of the car park just after the building.

Anticlockwise

You will come to a flyover and then a roundabout. Go straight ahead at the roundabout, take the first left turn into Oak Street and then the next left turn into St Martins Lane. The office is on the left hand side and drive into the entrance of the car park just after the building.
